A Curated Community of Serious Founders

You won't just learn from mentors.

You'll learn from other founders building businesses alongside you.

The cohort is intentionally limited to create meaningful relationships, honest conversations and opportunities for collaboration.

Your cohort can become:

Your sounding board.

Your network.

Your collaborators.

Your future partners.

Experts. Operators. Founders.

100X Forge brings together experienced professionals, entrepreneurs, operators and domain experts across:

Strategy | Finance | Marketing | Technology | AI | Sales | HR | Operations | Fundraising | Branding

Instead of one mentor trying to solve every problem, you get access to a broader ecosystem of expertise.

Who Gets Selected?

We are not looking for perfect businesses.

We are looking for **serious founders**.

Your application will help us understand:

What are you building?

Where are you today?

What's stopping you from growing?

Where do you want to take the business?

Why do you believe you can build it?

We look for founders with ambition, clarity, resilience and the willingness to execute.

This Is Not For Everyone.

100X Forge may not be the right fit if you're looking for:

- ✗ A motivational seminar
- ✗ A certificate
- ✗ Passive mentorship
- ✗ Someone to build your business for you
- ✗ Short-term hacks without execution

It is designed for founders who are willing to **question, rebuild, execute and grow**.

Your Business. Your Next 100X.

Every business reaches a point where what worked before stops working.

The next stage requires a different strategy.

A different team.

Better systems.

Better technology.

Better execution.

100X Forge exists to help founders make that transition.

Ready to build what comes next?

Applications are now open.

Limited seats per cohort.

Applications are reviewed before founders are invited to the next stage of the selection process.

This can be made **much more premium and YC-style in the actual landing page UI** by reducing the text further and turning it into a sharp sequence: **Who We Want → What You Get → How It Works → Ecosystem → Selection → Apply.**
